The Artisan

COLLECTION

The Artisan Collection is an importer of artisanal wines from family owned wineries. Our wines are carefully selected to reflect the values of the company, centered on preserving and promoting traditions and authenticity.

We work with passionate winemakers who strive to create not only what is authentic, but also unique. Our growers have the highest possible respect for the land they cultivate and practice sustainable agriculture, often organic or biodynamic, with only minimal intervention in the cellar. The results are delightful wines of great value that consistently over-deliver.

To preserve the quality of the wines we use only expedient and 100% refrigerated storage and shipping. This passion and attention to detail has not gone unnoticed, with the Wine Advocate stating we are *“heading off the beaten track and discovering some wonderful wines that we would otherwise never see.”*
